¶4. Please note that visas are required for entry into Nigeria and must be obtained prior to traveling. Airport visas are not available.

¶5. SECURITY: There is no specific terrorist threat against American citizens or American interests in Nigeria. Rather, the main threat to U.S. citizens and U.S. interests is mostly criminal based upon prevailing economic conditions. Violent crime is endemic throughout the country. Armed street robberies, carjackings, sexual assaults, residential burglaries and credit card fraud threaten every person in the country, foreigners and Nigerians alike. U.S. citizens and official travelers have not been singled out, but they are generally perceived to be affluent and are subject to the same threat as all other persons in Nigeria. There have also been incidents of violent communal unrest outside Abuja and

Lagos during the past several months, and innocent bystanders have suffered. RSO has determined that most violent crimes around Abuja take place between the hours of 2300 - 0600. Embassy Abuja will arrange for appropriate security details to accompany the delegation.

¶6. MEDICAL: Malaria prophylaxis should be started one week before arrival, continued through the length of stay and at least four weeks after departure. Visitors must ensure that their immunizations are up-to-date and carry their entire yellow book shot record with them. Avian influenza is present in Nigeria among birds.
